

# Fluent Literacy

## Fluent Readers

These confident readers have a deeper understanding of texts and how text works. They are reading independently. Students are maintaining meaning through longer and more complex stretches of language. A fluent reader has come to understand text as something that influences people's ideas.

### Reading

- Compare and contrast important details, including characters, setting, text structures (how is the text organized), ideas or concepts in the text.
- Encourage students to use evidence from the text to support their responses
- Encourage your child to read different kinds of materials (historical texts, informational texts, technical reports, poems, websites, magazines, articles, etc.)

### Writing

- Assist your child in locating facts and relevant information to support their viewpoint for a logical argument.
- Encourage your child to summarize information from print and digital resources in their own words.
- Support your child by developing a reading response journal in order to write about what their thinking during the reading process.

|  |          |       |              |        |
