Your child will have a variety of classroom assessments that will aid his or her teacher in knowing how to provide the best possible instruction for your child. These assessments will also help you know how well your child is learning and what extra support may be needed. In addition, your child will participate in some standardized assessments that are used to gauge how well your child is doing in his or her grade level.

The State of Georgia requires that students in grades 3-5 participate in the annual administration of state assessments. The state assessment is called the Georgia Milestones Assessment System. Georgia Milestones measures how well students have learned the knowledge and skills in core subjects. Students in grade 4 will take an End of Grade (EOG) assessment as part of the Georgia Milestones in math and language arts. The EOG will include multiple choice and short answer questions. The language arts EOG has a third section, which focuses on writing.

All students in grades K-9 participate in the universal screening process for reading and math using a digital inventory. Your 4th grader’s proficiency and progress in reading and math will be measured three times a year.
