

RENAISSANCE at home

FOR EDUCATORS: Implementation Tips for Freckle Premium

Assigning Practice:

Consider what technology your students have available at home.

Freckle Works on the Following Devices:

- Chromebooks, laptops
- iPad Air - Generation 2 or later, iPad Pro, iPad 5th generation (2017), iPad 6th generation (2018)
- Amazon Kindle Fire HD 10"
- Android tablets with 10" diagonal screen size or larger that support the Google Chrome web browser

Math and ELA

Select **Math** or **ELA**. Select **Assign**. Select the task you want to assign. Select students and skills.

- **Math Adaptive Practice:** Assign a specific domain to students; they will practice at their own level and pace.
- **Math Targeted Practice:** Assign a specific standard and skill and select 3, 5, or 10 questions for students to complete.
- **ELA Skills Check:** Assign Adaptive or Targeted practice of ELA skills aligned to your standards.
- **Word Study:** Assign a specific phonics lesson based on student grade and level.
- **Decodables:** Assign simple stories with phonetic spelling patterns and sight words.

Social Studies and Science:

- Locate and assign **Articles** within **Units** to support student learning.

Supporting Students at Home

- Use the **Activity Feed** to track student work and usage.
- Use the **Reports** in Math and ELA to track student levels and adjust levels as needed.

Access Printables to Send Home with Students

- Under **Math**, select **Math Content**, and then select **Printables**.
- ELA articles can be printed with multiple choice questions. Next to the assign button, select **Print with answers**, then select **Print without answers** from the drop-down menu.
- Social Studies and Science have printable activities, graphic organizers, and benchmark assessments to support learning.
 - Locate activities under **Units**, then select **Activity Resources** to download printables.

Skills Practice	
ONLINE PRACTICE	PRINTABLE RESOURCES
 K-12 Adaptive Math Pathway Assign	Students or Teachers can pick a domain (i.e. "Geometry") for practice. Students start with a pretest and Freckle adapts to their level. Generate
 K-12 Targeted Math Practice Assign	Teachers can assign a specific standard for all students to practice. Assign
