

I NEED A TEST FOR COVID-19

Getting an Saliva Test at a Drive Up Clinic

I need to have a test to see if I have COVID-19. I have to have this test if I feel sick or if I need to have surgery or a test in the hospital. I can get this test in my car.

We will drive up to the tent. My family will tell one of the helpers my name and birthday.

I will stay in the car the whole time. I can bring my favorite toy or game with me. I can even listen to music during my test if I want to!

We are getting closer to the helpers who will do the test. I will see people dressed up in gowns, gloves, masks, and face shields. They are wearing these things to keep me safe.

Even though I can't see their faces, the helpers have big smiles and they want to take the best care of me!

It is time for my test. The helper will hand me a special cup for my test, and tell me what to do. I need to listen very carefully to the helper.

I will need to spit into the cup for the test. I need to put my mouth near the cup to make sure that the spit only goes into the cup. My family can help me do this.

My test is done! My family will be very glad that I got my test. I can wave goodbye to the helpers and go home.
