AUTISM SOCIETY

BACK TO SCHOOL: QUESTIONS TO ASK EDUCATORS

GET THE ANSWERS YOU NEED.

- How will the school address IEP social/emotional goals and objectives that involve interaction with peers?
- What alternatives will be offered to my child if he/she does ot respond to the virtual learning platform being used by his/her teacher?
- If wearing face masks and keeping social distancing are going to be required by teachers, staff and students, how will this be managed when my child will not wear a face mask or keep social distance due to lack of understanding?
- Will missed related services sessions (OT, Speech, PT) be rescheduled?
- What supports will be available to parents to help them better facilitate their child's learning?
- My child's IEP includes consultation services from a specialist (reading, behavior, medical). How will this be implemented?
- My child, who exhibits significant behavior challenges, has a behavior intervention plan (BIP) in his/her IEP that requires staff to physically step in. How will his/her BIP be implemented with the social distancing requirement?
